

Certified Diploma Program in

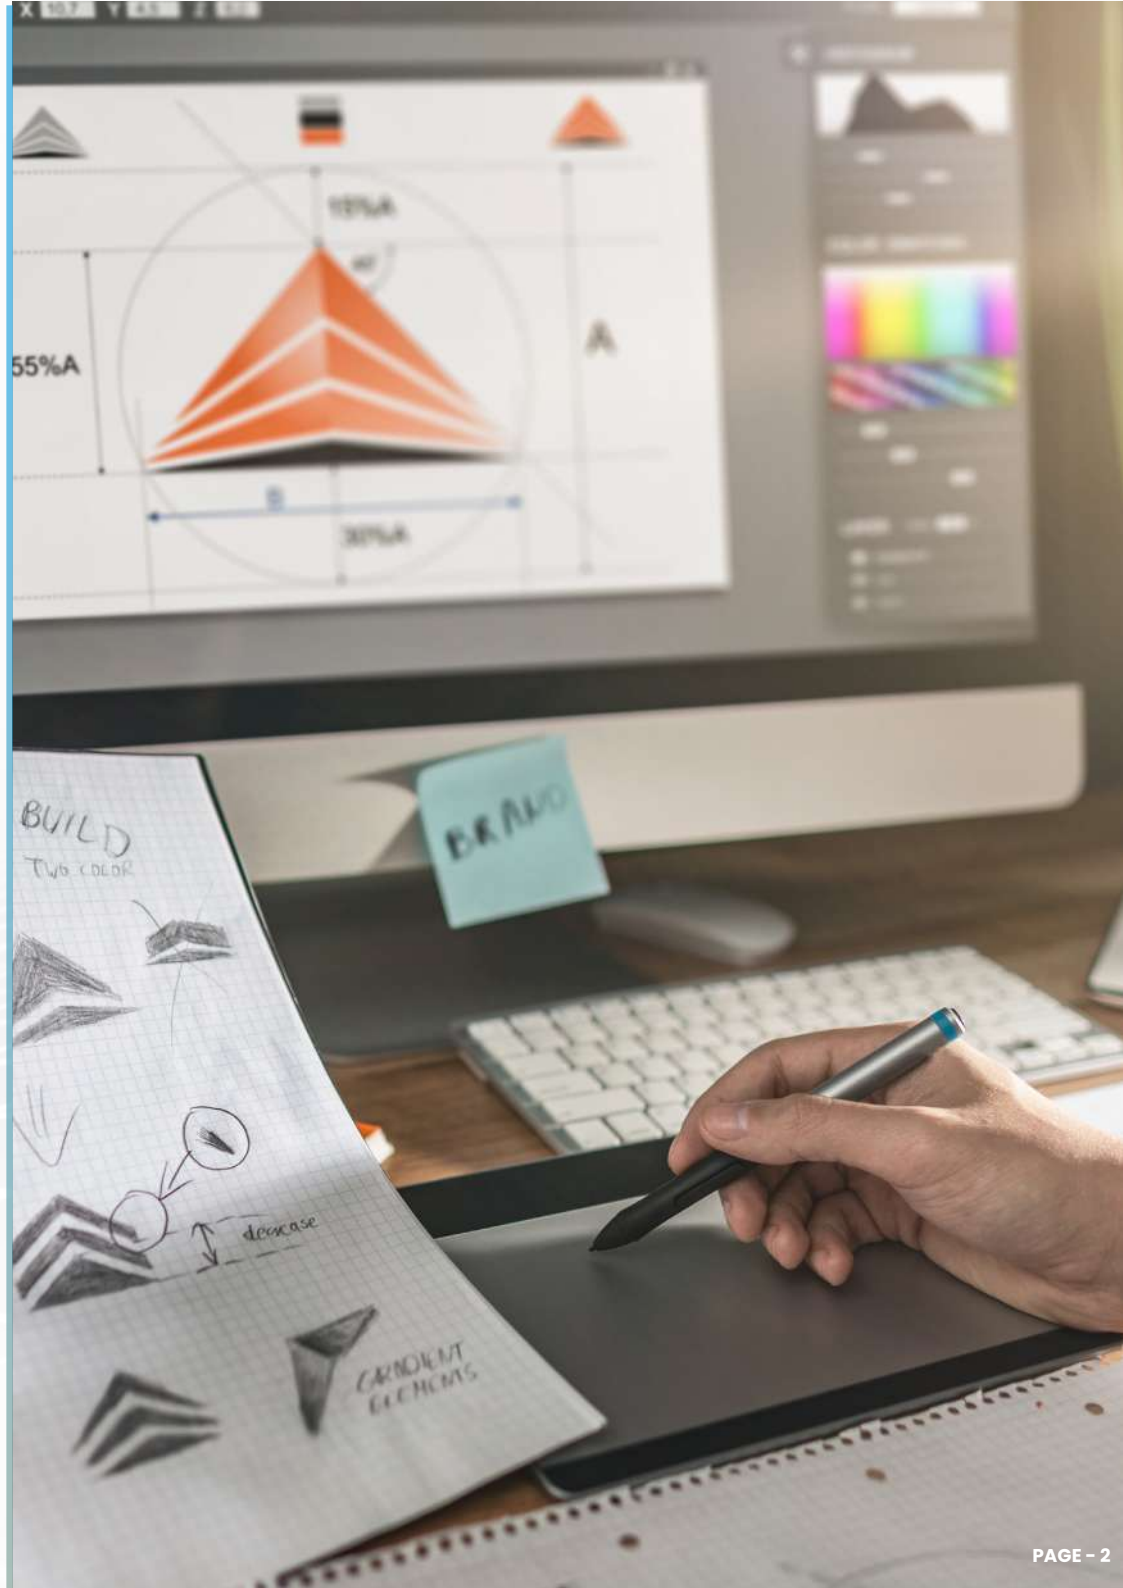

GRAPHIC DESIGNING

In Association With JainX University

📅 3 Months

🏆 Certification

👤 Hands on Training

About us :

Established in the year 2012, it's training programs are designed in a way to bridge a gap between the managerial competencies and evolving technological needs.

After careful consideration into the market and industry standards, our academic stalwarts have curated our curriculum in such a way that provides real-time practical exposure which are not offered by the traditional colleges.

Drawing on the rich history of excellence in education and innovation, Digital Nest provides unique and comprehensive curriculum design and delivery methodologies, and hence they come together to offer the best-designed programs.

Our Graphic Designing Course Reviews

I recently completed the Graphic Designing course in Hyderabad, and I must say it was the best training experience I've had in this field. The course provided by Digital Nest has truly exceeded my expectations and equipped me with the skills and knowledge needed to excel in the world of graphic design. I highly recommend Digital Nest for anyone looking to pursue a Graphic designing course in Hyderabad.

Anvesh Vala | Graphic Designing Trainee

Team Lead , Home Lane

I recently had the pleasure of attending the Graphic designing training in Hyderabad at Digital Nest. The course content was comprehensive, covering all the essential aspects of graphic design. The trainer's expertise and passion for the subject were evident throughout the course. Their teaching methods were engaging and interactive, making the learning process enjoyable. I recommend this training institute for anyone seeking the Graphic designing course in Hyderabad.

Muniba | Graphic Designing Trainee

Illustrator, Lifestyle

I had the opportunity to enroll in the Graphic designing course in Hyderabad at Digital Nest, and I must say it was an excellent decision. The trainer's knowledge and expertise were remarkable, and they created a supportive learning environment. The course content was well-structured, covering everything from design principles to software proficiency. I highly recommend this training institute to anyone searching for the Graphic Designing training in Hyderabad.

Aishwarya | Graphic Designing Trainee

Creative Designer, PVK Visuals

I recently completed Graphic designing course in Hyderabad at Digital Nest, and I can say that it was an outstanding learning experience. The curriculum was comprehensive and covered all aspects of graphic design. The trainer was highly skilled and knowledgeable, making the learning process engaging and enjoyable. I highly recommend this course to anyone seeking the best Graphic designing training in Hyderabad.

Saanvi | Graphic Designing Trainee

Student

Our Students Hail From

Activity Oriented Learning

Career Development Program

We offer personalized guidance and training to prepare learners for interviews, resume building, and professional networking. This supports the growth of students.

Foster Collaboration

Fostering a positive educational culture that encourages collaboration, open communication, and support among learners and faculty contributing to the overall satisfaction and success of learners.

Practical Oreinted Training

Design curriculum structures that emphasize the application of theoretical knowledge in practical settings. This approach enhances students' skills and problem-solving abilities.

Interactive Learning

Seek to provide dynamic learning programs that prioritize interaction, incorporating workshops, simulations, and hands-on experiences to enhance the educational journey.

Diverse Learning Environment

Foster an inclusive learning environment that celebrates diversity. This approach enriches the educational experience by exposing students to a variety of perspectives and ideas.

Work on Real - Time Projects

We prioritize a hands-on learning approach by immersing students in real-time projects. This ensures that our learners not only grasp theoretical concepts but also acquire practical learning

Digital Nest Advantage

Have a Great Journey of Learning at Digital Nest

Our Courses are taught by Real time Industry Experts with latest teaching tools and techniques ,Our LMS and dedicated Support manager are Key Important aspects that make learning easy and simple.

Interactive Learning

All the Courses taught by us are Interactive , with Limited strength in a batch we make sure that you get the best experience

Dedicated Program Manager

We have a dedicated Program Manager who will Constantly take feedback, for the Students to have a better learning experience

Network with Alumni

Digital Nest has over 6000+ alumnus working with various Organizations. We have a Networking app to connect with the alumni as well

Case Studies, Material

All our courses are not just Theoretical, We teach using Practical methods such as Simulation Exercises, Projects, Assessments etc

World Class Learning Management System

Digital Nest has built a Software for students to learn using LMS. Students can download material and freely access all the live and Recorded sessions with no hassle

Dedicated Placement Officer & Job Portal

We conduct Mock Interviews and Screen CV's to make you industry ready. We have a unique job portal disclosing all the job listings posted by the recruiter

Getting Started With Adobe Photoshop

1. Downloading and Installing the software in the system

2. Understanding how Digital Images Work

About the PDF file format
Understanding RGB and CMYK color models
Image size vs. Resolution - What's the difference?
Pixel Aspect Ratio - Are all pixels square?
Bits per channel - What does that mean?
Alpha Channel - Why is this important to us?

3. Getting to know the work area

Restoring default preferences
Starting to work in Adobe Photoshop
Using the tools
Sampling a color
Working with tools and tool properties
Undoing actions in Photoshop
More about panels and panel locations

4. Basic Photo Correction

Strategy for retouching
Resolution and image size
Opening a file with Adobe Bridge
Straightening and cropping the image in Photoshop

Adjusting the color and tone
Using the Spot Healing Brush tool
Applying a content-aware patch
Repairing areas with the Clone Stamp tool
Sharpening the image
*Assignment for the above

5. Working with Selections

About selecting and selection tools
Using Cloud Documents
Using the Magic Wand tool
Using the Quick
Selection tool
Moving a selected area
Using the Object Selection tool
Manipulating selections
Selecting with the lasso tools
Rotating a selection
Selecting with the Magnetic Lasso tool
Selecting from a center point
Resizing and copying a selection
Cropping an image
*Assignment for the above

6. Layer Basics About layers

Using the Layers panel Rearranging layers

Applying a gradient to a layer Applying a layer style

Adding an adjustment layer Updating layer effects

Adding a border

Flattening and saving files

*Assignment for the above

7. Quick Fixes with Photoshop

Improving a snapshot

Adjusting facial features with Liquify

Blurring a background

Creating a panorama

Filling empty areas when cropping

Correcting image distortion

Extending depth of field

Removing objects using Content-Aware Fill

Adjusting perspective in an image

*Assignment for the above

8. Masks and Channels

Working with masks and channels

Using Select and Mask and Select Subject

Creating a quick mask

Manipulating an image with Puppet Warp

Working with masks and channels

*Assignment for the above

9. Typographic Design

About type Getting started

Creating a clipping mask from type

Creating type on a path

Warping point type

Designing paragraphs of type

Adding a rounded rectangle

Adding vertical text

*Assignment for the above

10. Advanced Compositing

Arranging layers Using Smart Filters

Painting a layer

Adding a background

Using the History panel to undo edits

Upscaling a low-resolution image

*Assignment for the above

11. Painting with the Mixer Brush

About the Mixer Brush Getting started

Selecting brush settings

Mixing colors

Mixing colors with a photograph

Painting and mixing colors with brush presets

*Assignment for the above

12. Exploring Neural Filters

Understanding Neural Filters

Getting started

Exploring the Neural Filters workspace

Improving complexion with Skin Smoothing

Combining Neural Filters

13. Saving Your File

Understanding File Types

Choose the Right Options and File Type

Getting Started With **Adobe** **illustrator** **Ai**

1. Downloading and Installing the software in the system

2. Introduction to Illustrator Interface

First Time Opening Illustrator

Understanding Art Boards

Navigation Tools

3. Working with Objects

Basic Shapes

Transform Control

Combining Shapes

Selection Tools Organising Objects

Alignment

*Assignment for the above

4. Everything about Appearance

Strokes

Swatches

Gradient

Appearance

Effects

*Assignment for the above

5. Typography

Character and Paragraph Formatting

Character Style and Fonts

Touch Type Tool & Type on Path

Text Wrap

3D Text

*Assignment for the above

6. Working with Brushes

Calligraphic Brush Scatter Brush

Make a Noise Brush

Art Brush

Pattern Brush

Image Brush

*Assignment for the above

7. Drawing in Illustrator

Drawing Tools

Blob Brush Tool

Pen Tool

Mesh Tool

Curvature & Reshape Tools

Distort Tools

*Assignment for the above

8. Masking Type of Masks

Practice Clipping Mask

Practice Opacity Mask

*Assignment for the above

9. Vector Tracing (Drawing from Image)

Practice Clipping Mask

Practice Opacity Mask

*Assignment for the above

10. Exporting the workflow

Save for Print

Save for Screens

Save as PDF documents

Save for EPS file

Getting Started With **Adobe InDesign**

1. Downloading and Installing the software in the system

2. Introduction to Adobe InDesign

Understanding the Interface of the software
InDesign Workspace

3. Document Setup

Creating a new document
Document setup
How to create objects
Document navigation

4. Page Setup

Page structure
Page arrangement
Set page size, margins and bleeds

5. Objects and Graphics

Creating and editing objects
Creating graphic frames and adding images
Duplication and transformation of objects
Layers and alignment Text Wrap
*Assignment for the above

6. Text

Text formatting Parameters of symbols
Tracking and kerning
Text alignment
Paragraph rules
Tabulation
Transferring a text
Break Line Styles
Special characters
Find/Change
*Assignment for the above

7. Colors

Working with colors
Generating the graphics
*Assignment for the above

8. Print and export

Exporting the document for digital content
Exporting for print

Getting Started With Figma

1. Downloading and Installing the software in the system

2. Introduction to Figma

Welcome to User Interface Overview of Figma
User Research and User Needs
User Interface Principles

3. Drafting

Creating a Figma Account
Creating a New Design
File Mapping the User Journey
Creation of Wireframes

4. Framing, Layering and Grouping

Creating Frames
Function of Tools
Font Usage
Layout Planning
Images and Masking
Components
Constraints and Versioning

5. Prototyping

Team Libraries and
Setups Previewing and Commenting
Exporting Assets

6. Demonstrations

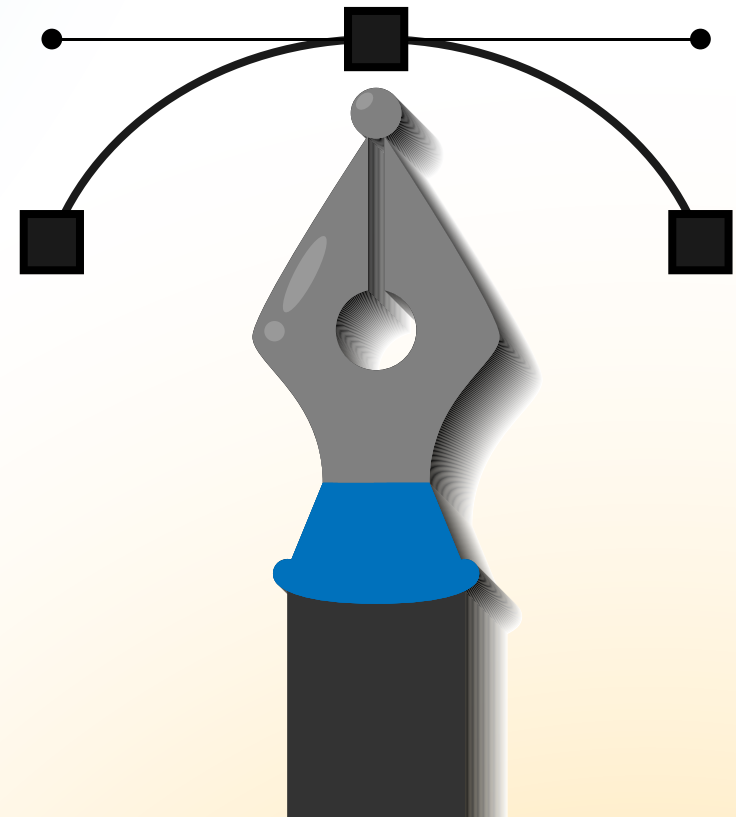

App Scenario
Website Scenario
*Assignment for the above
